PROFESSIONAL SUMMARY

I'm results-driven Full Stack Developer with 1+ year of professional experience designing, developing, and deploying scalable web applications. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and MySQL, with hands-on experience building production-ready SaaS, CRM, AI-powered, and multi-tenant applications. Experienced in containerizing applications with Docker, automating deployments using GitHub Actions and CI/CD pipelines, and deploying applications on Linux-based VPS servers. Active competitive programmer on Codeforces (Pupil, 1212 rating) with strong problem-solving skills and a solid foundation in Object-Oriented Programming (OOP), data structures and algorithms.

EXPERIENCE

Jr. Full Stack Developer

Nov 2025 – Present

Softvience IT Ltd

- Developed and maintained scalable SaaS, CRM, n8n, healthcare, e-commerce, and multi-tenant applications using React.js, Next.js, TypeScript, Redux, Node.js, Express.js, MongoDB and other tools.
- Dockerized websites using Docker and deployed in Linux based VPS. Used CI/CD for automatic deployment.
- Made 2x and more than 3x revenue for the organization in each month according to my salary.
- Successfully completed 10+ real-world projects while collaborating with cross-functional teams in agile development environments.
- Solved frontend and backend performance and data management challenges by optimizing reusable component architecture and API handling.
- Participated in international client meetings, analyzed business requirements, and translated them into technical solutions while communicating effectively in English.
- Implemented and integrated RESTful APIs and AI features like OpenAI API, n8n with focus on scalability, responsiveness, and cross-browser compatibility.
- Confirmed as a permanent employee within 1.5 months instead of the standard 3-month probation period based on performance and contribution.

Frontend Developer – Intern

Jul 2025 – Aug 2025

Telerism Ltd

- Assisted in developing responsive frontend applications using React.js, JavaScript, Bootstrap, and Tailwind CSS.
- Contributed to 3 real-world projects involving API integration, reusable component development, and responsive UI implementation.
- Worked closely with senior developers to analyze requirements, debug issues, and improve application usability and performance.
- Gained hands-on experience in software development workflows, version control, and collaborative team environments.

SKILLS

Frontend Development:	HTML5, CSS3, TypeScript, Bootstrap, Tailwind CSS, Shadcn/UI, Recharts, GSAP, React.js, Next.js, Redux, Redux Toolkit, RTK Query
Backend Development:	Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.IO
Database:	MongoDB, MySQL
Programming Languages:	JavaScript (ES6+), Python, C, C++
Technologies:	Git & GitHub, Postman, Figma, Stripe, OAuth
DevOps:	Linux, Docker, CI/CD pipelines, Github Actions, VPS hosting

PROJECTS

Bizzy – AI Receptionist Platform (SaaS)

[Live Link](#)

Developed a scalable AI-powered receptionist platform that enables businesses to automate inbound phone call handling 24/7. The system uses real-time speech-to-text, large language models, and text-to-speech to manage tasks such as appointment booking, order processing, lead qualification, and customer support. Built with a multi-tenant architecture, role-based access control, and a full-featured admin dashboard, focusing on reliability and real-time analytics.

ProFileGen – Resume Builder (SaaS)

[Live Link](#)

Designed and developed a full-stack MERN-based resume builder platform supporting dynamic CV generation and secure user management. Solved challenges related to authentication, protected routing, and dynamic template rendering using JWT authentication and modular architecture. Implemented responsive UI, Stripe-based subscription workflow, and scalable dashboard management features.

MamaBot

[Live Link](#)

MamaBot is an AI-powered motherhood support platform that provides personalized guidance during pregnancy and the postpartum period. It features an AI chatbot, a social community system for posting and interaction, and AI-based product recommendations, all designed to deliver a userfriendly and engaging experience.

EDUCATION

BSc in Computer Science & Engineering (CSE)

2021 – 2025

Green University of Bangladesh

Higher Secondary Certificate (HSC) – Science

2018 – 2020

Kalihati Shahjahan Siraj College

ACHIEVEMENTS

- **Pupil** on Codeforces.
- Confirmed as a permanent employee within **1.5 months**, ahead of the standard 3-month probation period, based on performance.
- Received the **Dean's Certificate** from Green University of Bangladesh for Excellent Academic Performance (2025).
- Received the **VC's Certificate** from Green University of Bangladesh for Outstanding Academic Performance (2024).

EXTRACURRICULAR ACTIVITIES

- Member – Green University Cultural Club (GUCC).
- Competitive programming rating of **1212** on [Codeforces](#) with 160+ solved algorithmic problems. and regularly solving problems on leetcode.
- Participated in programming contests and practiced problem-solving regularly to strengthen analytical thinking and algorithmic skills.
- Contributed to open-source projects on [GitHub](#).
